

CHAINLESS 2000⁴

The original, proven and extremely popular Chainless bale feeder for round and square bales has kept the DNA of the original such as the 3:1 teasing function, in a new and improved, economical design that can now be fitted to your tractor 3 point linkage or front loader, skid-steer or telehandler with the optional brackets.

BUILT TOUGHER

The new model is rated to handle 1,000kg bales with ease.

PROVEN CURVED PLATFORM

Market tested for the stickiest of alfalfa bales, the polyethylene platform is slippery and the new shape helps to break apart flakes better.

OPTIONAL EXTENSION

Optional platform extension available for 8' long square bales.

BOLTED HITCH MOUNTS

Gives you more flexibility, replace them with skid-loader brackets for front mounted loader flexibility, reach and visibility.

NEW PLATFORM MOUNT

Using bearings instead of wear pads for increased durability and reliability.

PROVEN ROTOR DESIGN

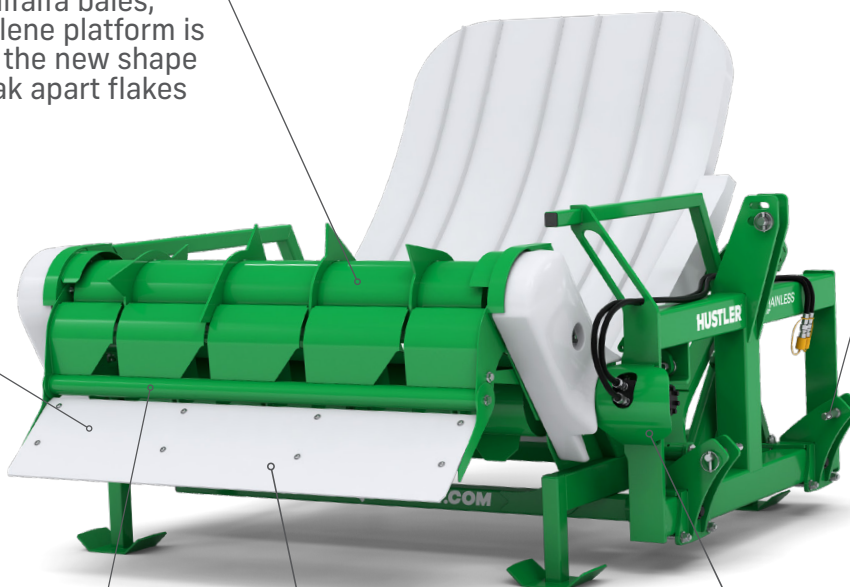

Same proven rotor shape, and paddle design as the original Chainless 2000.

PROVEN FREE-FLOW WIPER PANEL

The same Free-Flow wiper panel design as the original Chainless 2000 for easy feed release. Shown with optional side chute.

STRONGER DRIVE SYSTEM

The new Drive Dog system utilises two heavy-duty bearings instead of bushes, which lasts longer can provides more rigidity.

OPTIONS

Loader/Telehandler Mounts

(Optional mounting bracket to suit most telehandlers)

Platform Extension

(Side bar kit to feed square bales up to 8' long)

Side Chute

(Deflects hay further out from the machine, great for feeding into bunks or troughs)
